

AMENDMENTS TO THE CLAIMS

1. (Currently amended): A portable telephone ~~audio/video playback apparatus having a broadcast receiving function, the portable audio/video playback apparatus comprising a portable~~ telephone ~~an apparatus-main body with a speaker and a display capable of reproducing and outputting an audio signal and a video signal, and a broadcast receiver unit removably attached to the portable telephone apparatus-main body, the portable telephone apparatus-main body~~ comprising:

a speaker;

a display;

a receiving unit for receiving an audio signal and/or a visible information signal from a telephone network;

an audio signal processing unit for applying a signal processing to the audio signal received by the receiving unit for output to the speaker;

a video signal processing unit for applying a signal processing to the visible information signal received by the receiving unit for output to the display; and

a first interface means unit connected to the audio signal processing unit and the video signal processing unit for connecting thereto to the broadcast receiver unit;

~~audio signal processing means connected to the interface means for applying a signal processing to an audio signal externally fed thereto to prepare a signal to be outputted to the speaker, and feeding the signal to the speaker; and~~

~~video signal processing means connected to the interface means for applying a signal processing to a video signal externally fed thereto to prepare a signal to be outputted to the display, and feeding the signal to the display~~the broadcast receiver unit comprising: comprising:

a second interface means unit connected to the first interface means unit of the apparatus portable telephone main body; and

a signal feeding means unit for feeding an audio signal and a video signal included in a received television broadcast signal to the second interface means unit, wherein

the audio signal processing unit of the portable telephone main body applies signal processing to the audio signal fed thereto from the broadcast receiver unit via the first interface unit for output to the speaker, while the video signal processing unit applies signal processing to the video signal fed thereto from the broadcast receiver unit via the first interface unit for output to the display with the broadcast receiver unit attached to the portable telephone main body.

2. (Currently amended): The portable ~~audio/video playback apparatus~~ telephone according to claim 1, wherein the ~~apparatus~~ portable telephone main body comprises a power source ~~means~~ unit for serving as a power source of the speaker, the display, the audio signal processing ~~means~~ unit and the video signal processing ~~means~~ unit, while the broadcast receiver unit comprises a power source ~~means~~ unit for serving as a power source of the signal feeding ~~means~~ unit.

3. (Currently amended): The portable ~~audio/video playback apparatus~~ telephone according to claim 1, wherein the broadcast receiver unit comprises:

a power source ~~means~~ unit for serving as a power source of the signal feeding ~~means~~ unit, and the speaker, the display, the audio signal processing ~~means~~ unit and the video signal processing ~~means~~ unit of the ~~apparatus~~ portable telephone main body; and

a pair of output terminals for outputting power obtained from the power source ~~means~~ unit, while the ~~apparatus~~ portable telephone main body comprises a casing incorporating therein the speaker, the display, the audio signal processing ~~means~~ unit and the video signal processing ~~means~~ unit, the casing comprising a pair of input terminals for inputting power and having recessed therein a containing portion capable of interchangeably containing a battery pack for serving as a power source of the speaker, the display, the audio signal processing ~~means~~ unit and the video signal processing ~~means~~ unit, and the broadcast receiver unit, wherein the pair of input terminals of the ~~apparatus~~ portable telephone main body and a pair of output terminals of the battery pack contact with each other with the containing portion containing the battery pack, while the pair of input terminals of the ~~apparatus~~ portable telephone main body and the pair of output terminals of the broadcast receiver unit contact with each other with the containing portion containing the broadcast receiver unit.

4. (Currently amended): The portable ~~audio/video playback apparatus~~ telephone according to any one of claims 1 to 3, wherein the ~~apparatus~~ portable telephone main body has a telephone communication function, and is capable of demonstrating the telephone communication function both with the broadcast receiver unit attached thereto and with the broadcast receiver unit removed therefrom.

5. (Canceled)

6. (Currently amended): The portable ~~audio/video playback apparatus~~ telephone according to ~~claim 5~~, claim 4, wherein the receiving ~~means~~ unit of the ~~apparatus~~ portable telephone main body is used also as a receiving ~~means~~ unit for a television broadcast signal with the broadcast receiver unit attached to the ~~apparatus~~ portable telephone main body.

7. (Currently amended): The portable ~~audio/video playback apparatus~~ telephone according to claim 4, wherein the broadcast receiver unit comprises a receiving means unit for receiving a television broadcast signal, and the receiving ~~means~~ unit is used also as a receiving ~~means~~ unit for receiving an audio signal and/or a visible information signal from a telephone network with the broadcast receiver unit attached to the ~~apparatus~~ portable telephone main body.

8. (Canceled)
